

What is Restorative Justice?

Restorative justice is about finding a way to put things right when someone has been harmed or upset

It means sitting down with the person who has harmed or upset you and with someone who will help you both to talk to each other about it, so you can ask them why they did what they did

You can ask them questions to help you understand why they did it and you can tell them how you feel about what happened

You can ask them what they will do to put it right and to make sure it doesn't happen again
